Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: figures 14B1 and 14B2 are missing in the drawings filed 1-9-02. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: claims 1-30 are allowed because, the prior art of record specifically Dunne (US 6,212,480) does not teach comparing the determined or calculated *retroreflectivity values* for each *color value* of the target object with a database of standard retroreflectivity values and *classifying a sheeting type* of the target object based on the comparison of claims 1, 21, 28, 29 and 30 combined with other features and elements of the claims.

Ex parte Quayle

3. This application is in condition for allowance except for the following formal matters:

See drawing objection above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Other prior art cited

4. Prior art of record cited and not relied upon is considered pertinent to applicant's disclosure.

The US Patent 6,166,813; US Patent 5,793,034; US Patent 4,920,385 and US Patent 4,491,923 variously teach retroreflective property analysis related to applicant's invention as claimed.
